

Welcome to Alpinkreativ – Hiking and Trekking for women

Since 2001 we continue our philosophy to offer active and nature friendly women journeys. Join us on marvelous treks and hikes in very special regions. We have time to discover the nature, the culture and tradition and enjoy to get in contact with local people. We walk in small groups, we travel individually and we always are open for all your wishes. No matter if we stay in cabins, in comfortable luxury hotels, if we hike or trek – the most important aspect is to have joyful and relaxing days in an outstanding region.

Mostly the treks are in the Alps. We are very experienced in all the Alps between Nice and Trieste. We also offer trekking in Nepal, Morocco and Scandinavia as well as more comfortable hiking & cultural tours in Tirol, Italy and Armenia.

For friends of wintertime and snow we have fantastic snowshoeing tours. We offer easy to medium trips during which we stay at the same hut and explore the mountains with snowshoes. We go to the Dolomites in Italy, to South Tirol and Austria. On request we offer additional snowshoeing for you individually.

New: Yoga and hiking in the Alps. Join us for Relaxing yoga and hiking weeks.

If you have any need of support regarding your planning, your journey to Europe or some additional holidays please let us know. We will be glad to give you all information and support.

In our calendar we mention cities which we think are worth a visit if you have enough time. Of course we will arrange accommodation, sightseeing guide etc. according to your wishes.

On request we offer you an individually planned trek.

Warm regards

and

**Gudrun:** *I grew up close to the Alps and after studying educational science and some years working at Salzburg University I decided to work as a guide. Meanwhile I have my own business for 14 years. All of my trekking trips are exclusively for women. I like the cooperative and communicative way of all woman groups. Once I did a private trek across the Pyrenees and the Alps from west to east. Kiru and I carried our tent and lived mostly in the mountains. This surely was a great summer and a wonderful experience.*

**Kiru B.:** *I grew up in Munich. Since I was a child I like to hike in the mountains. I'm also fascinated of the winter-wonder-landscape and love snowshoeing. For me trekking means learning about the nature and the local people. Together with Gudrun I trekked across the Alps which was a special time for me.*

*For 40 years I follow my Yoga way. Now I study and teach in the tradition of S.T. Krishnamacharya und T.K.V. Desikachar.*
